

Indoco Remedies gets USFDA nod to market generic epilepsy treatment medicine

PTI Updated: January 30, 2026 14:17 IST

New Delhi, Jan 30 (PTI) Indoco Remedies Ltd on Friday said it has received approval from the US health regulator to market its generic version of Lacosamide oral solution used in the treatment of epilepsy.

The approval by the US Food and Drug Administration (USFDA) is for the Abbreviated New Drug Application (ANDA) for Lacosamide oral solution of strength 10 mg/ml, Indoco Remedies said in a regulatory filing.

It is a generic equivalent to reference listed drug (RLD), Vimpat Oral Solution, 10 mg/ml, of UCB, Inc, it added.

The company said the approved oral solution will be manufactured at its Verna facility in Goa.

"This approval further reinforces our commitment to delivering high-quality healthcare to patients worldwide," Indoco Remedies Managing Director Aditi Panandikar said.

Lacosamide Oral solution is used to treat partial onset seizures and primary generalized tonic-clonic seizures in adults and children with epilepsy who are at least 4 years old.
